CAN YOU PROVE IT?

From Board Decision to Governance Evidence in the Age of AI

A HYPOTHETICAL GOVERNANCE STRESS TEST

AN INVESTIGATOR CALLS TOMORROW.

YOU HAVE

30 MINUTES

Produce the complete governance record behind one material board decision.

01	02	03	04
UNDER 30 MIN	**A FEW HOURS**	**A FEW DAYS**	**I'M HOPING NOBODY ASKS**

How quickly could your organisation produce the evidence?

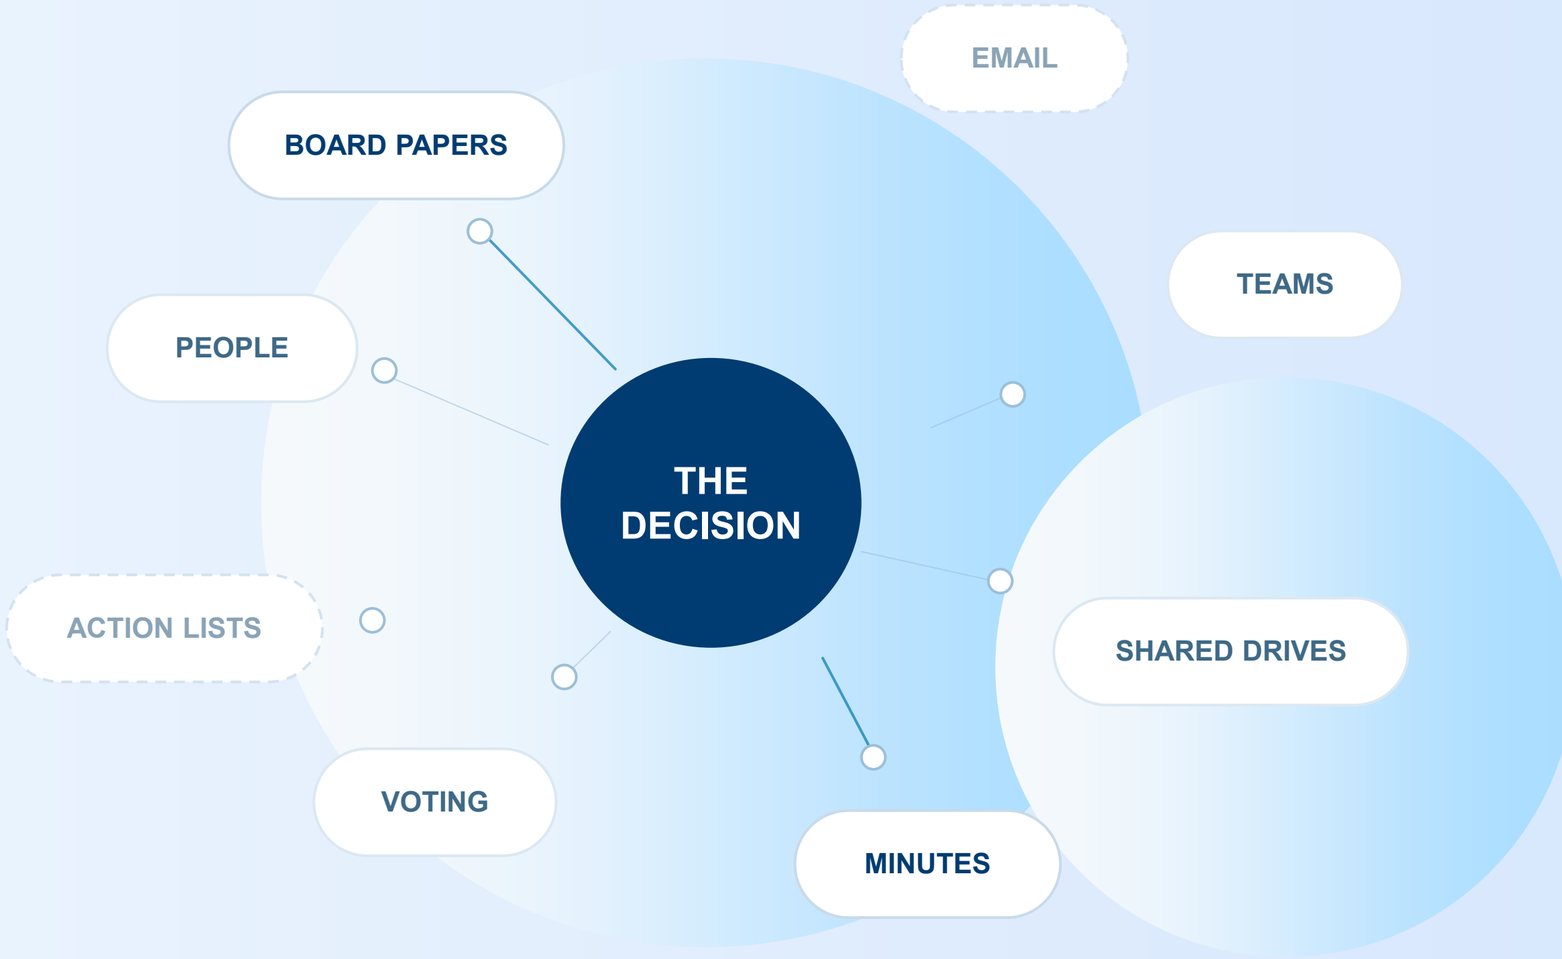
convene

WHERE EVIDENCE FRAGMENTS

The Governance Fault Line

One decision. Its evidence scattered across separate systems, documents and people.

Governance without accessible evidence becomes difficult to defend.

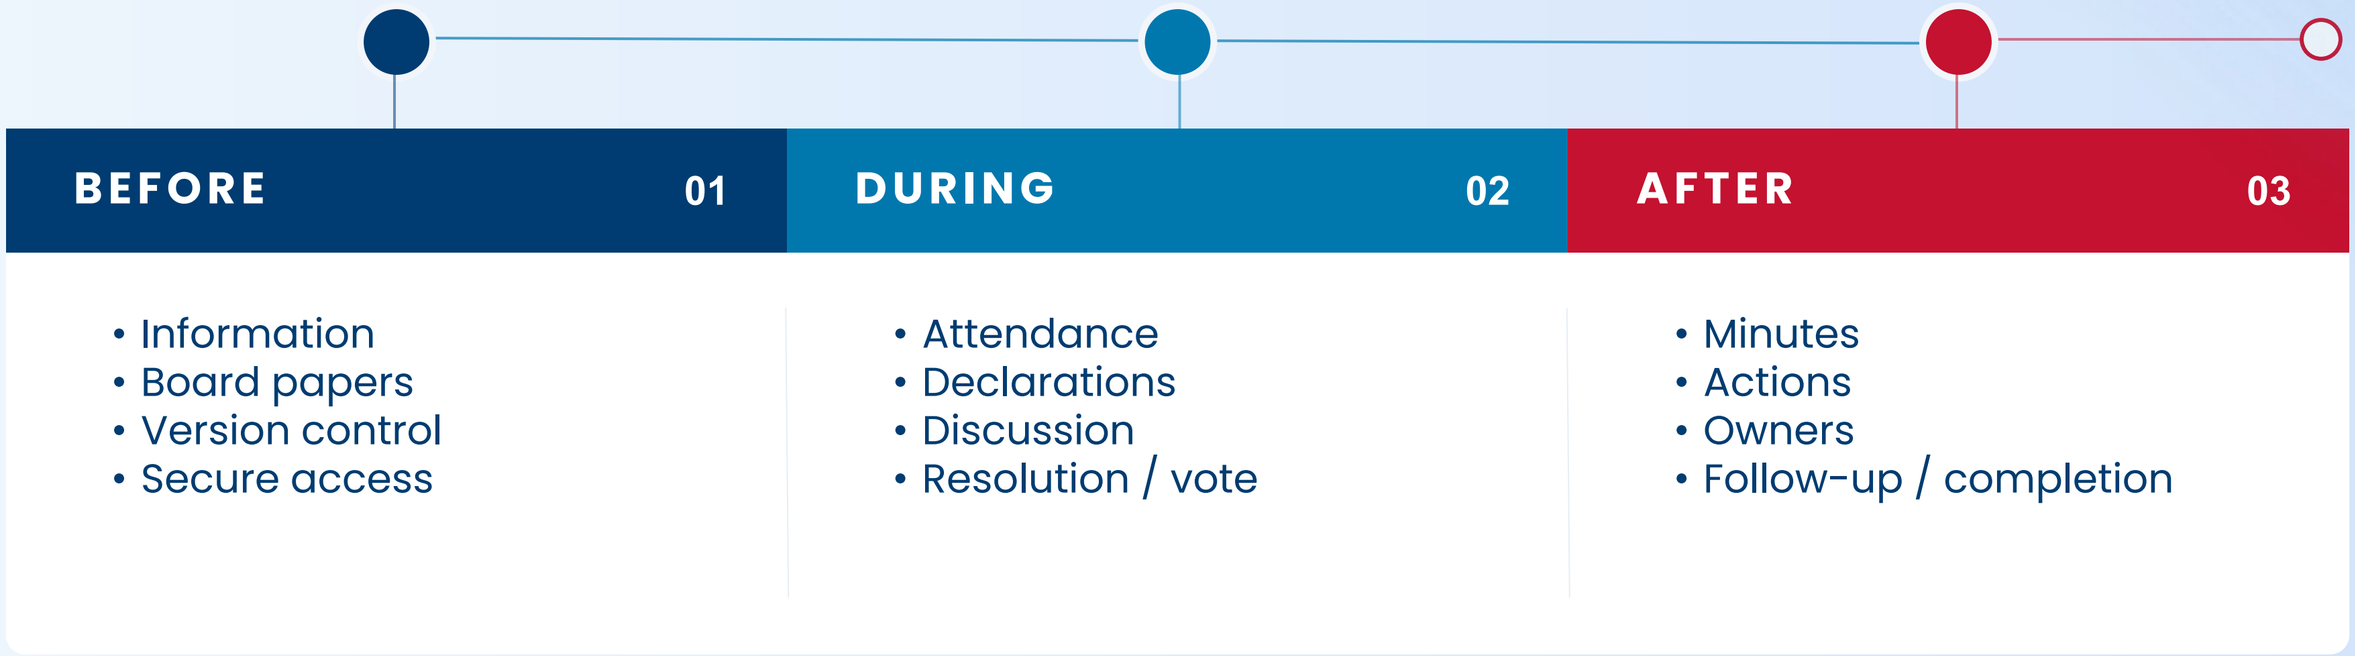


convene

FOLLOW ONE DECISION

A R500 MILLION ACQUISITION

The board must decide whether to approve it.



We're building the evidence surrounding a decision.

ACCOUNTABILITY DOES NOT TRANSFER

AI IS NOT THE ACCOUNTABLE DIRECTOR.

AI can accelerate governance work.
It cannot hold the accountability for it.

- **Where did AI enter?**
- **What did it produce?**
- **Who validated it?**

THE ACCOUNTABILITY CHAIN

How Defensible is Your Governance Process?

THE 7-QUESTION TEST

How Defensible Is Your Governance Process?

1. Can we reconstruct a material board decision quickly?
2. Can we establish what information directors received?
3. Can we demonstrate appropriate access?
4. Can we evidence attendance, declarations, resolutions and votes?
5. Can we track resulting actions?
6. Do we know where AI enters the workflow?
7. Can we produce the trail without relying on someone's inbox or memory?

NO / NOT SURE TO 2+ QUESTIONS?

You may have a governance technology gap.

convene

CAN YOU PROVE IT?

Good governance makes decisions.

Defensible governance preserves the evidence.
