Practical and work competencies

Given different scenarios, the learner must be able to resolve problems by applying the general principles of a range of commercial legislation.

- Apply the legal requirements involved in lawfully hiring, managing and dismissing workers or employees.
- Referring to case studies and case law, apply the legal requirements involved in managing the intellectual property of a company.
- Evaluate company business practices to determine compliance with to competition laws and consumer legislation.
- Referring to case studies and case law, apply the legal principles of insolvency to determine whether a company should apply for liquidation.
- Given case study and relevant case law, apply the principles of agency law to problem situations.
- Given a problem scenario, and applying the principles of secured transactions, ascertain when a security interest attaches.
- Given a trust document, evaluate it for compliance with legislation.
- Referring to case studies and case law, apply the principles involved in alternative dispute resolution.
- Use a given set of facts to illustrate how the law of intestate succession in South Africa is applied.
- Conduct research into recent instances of violations of the Consumer Protection Act and how the courts have resolved these.
